

OverDrive Video

The largest collection of downloadable feature films, TV series, documentaries, and more for libraries

Movies and more anytime, anywhere

Add video downloads to your library's digital catalog and instantly increase the value of your library's 'Virtual Branch' website powered by OverDrive. OverDrive offers more than 15,000 download video titles in a variety of subjects from PBS, A+E Networks, Weston Woods, and other top suppliers.

Single website for all downloads

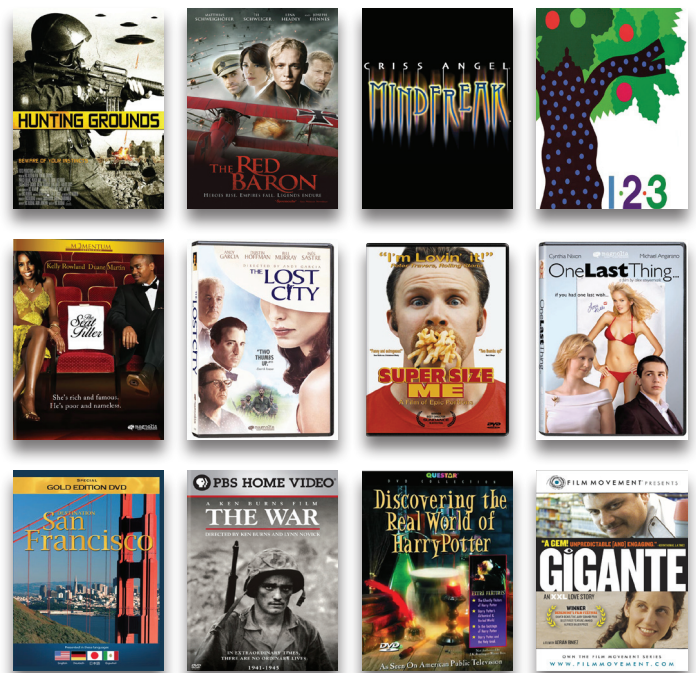

When you add video downloads to your digital catalog, library users access titles with the same website and OverDrive® software they already use to download audiobooks from the library. Users can simply browse, check out, and download video titles to their personal computer anywhere they have an Internet connection, and then enjoy them on their PC or transfer to a compatible portable device.

Just like the audiobooks on your library's download website, video titles from OverDrive can be played on desktop or laptop PC and transferred to a number of portable devices. Each video title has an optimized mobile version available for download and easy transfer to devices from Creative®, Sandisk®, and other device makers.
