

OverDrive Corporate Overview

OverDrive is a leading multichannel digital distributor and technology provider. We enable publishers, libraries, schools, retailers and corporate enterprises to securely manage, enhance, protect, and fulfill their eBooks, audiobooks, music and video through custom and end-to-end solutions.

Partner-Driven Solutions

Library
K-12 School
Higher Education
Corporate
Retail
Publisher

OverDrive's global client list includes hundreds of leading publishers and thousands of libraries, schools, retailers, and corporate enterprises serving millions of end users. We have developed deep relationships with global leaders, such as HarperCollins, Random House, Scholastic, John Wiley, Microsoft and Barnes & Noble. We also power digital catalogs for public, school and corporate library systems large and small in more than 20 countries.

Best Download Service

eBooks
Audiobooks
Music
Video

Our customers benefit from the circulation or sales our solutions help drive. Four main categories define what we do (*see reverse for more detail*):

Manage • Enhance • Protect • Fulfill

OverDrive enables the uploading, hosting, and distributing of popular and educational eBooks, audiobooks, music and video, as well as local content. An easy-to-use admin portal simplifies content selection, purchase and activity tracking via real-time reports. In addition, we provide expert training and support. Whether you're the rights holder or the public-facing channel, end users will be enabled to download your DRM-protected or unprotected content.

A single website for eBooks, audiobooks, music and video streamlines the user experience. Our free download software, OverDrive® Media Console™, enhances usability and portability of eBooks, audiobooks, music and video with support for Windows®, Mac®, iPhone®, iPad®, Android™, BlackBerry® and Windows® Phone.

Technical Expertise & Innovation

Much of OverDrive's success can be traced to the innovative digital media ecosystem built from the ground up by our talented engineering team. We have developed intelligent and intuitive solutions for each step of the "manage, protect, enhance & fulfill" download process, including the user experience. As a founding member of the International Digital Publishing Forum (www.IDPF.org), OverDrive helps promote standards for the rapidly evolving digital publishing industry.
